Data Scientist

ZEYAD ELSHENAWY

+201028697404 | zeyadelshenawy1@gmail.com
Linked in | Git Hub | Kaggle
My portfolio
Egypt, Cairo

Skills

Python
Libraries: Pandas, NumPy, scikit-learn, Matplotlib, Seaborn, Plotly

Power Bi
Tools: DAX, API, Power Query

Machine Learning
Supervised & Unsupervised Learning (Regression, Classification, Clustering)

Databases & SQL
Software: MySQL, PostgreSQL

Deep Learning
Neural Networks, CNNs, RNNs, Transfer Learning (TensorFlow, Keras, PyTorch)

Projects

END-TO-END DATA PIPELINE & MACHINE LEARNING PROJECT August 2025

- Built a data pipeline in Microsoft Fabric with PySpark to automate ingestion, cleaning, and transformation of raw data.
- Applied data preprocessing techniques (handling missing values, feature engineering, normalization) to prepare data for modeling.
- Developed and evaluated machine learning algorithms to extract insights and support business decision-making.
- Demonstrated integration of data engineering + machine learning within a digital transformation context.

BRAIN TUMOR CLASSIFICATION APP May 2025

- Built a medical imaging application that processes MRI scans and predicts tumor presence using a Convolutional Neural Network (CNN).
- Developed and trained the CNN model with *TensorFlow/Keras* on a labeled brain MRI dataset, achieving high accuracy in classification.
- Integrated the trained model into an application pipeline to allow real-time MRI image uploads and predictions.

HR ANALYTICS DASHBOARD (CASE STUDY – DATACAMP) August 2025

- Developed an interactive HR analytics dashboard in Power BI as part of a DataCamp case study.
- Cleaned and transformed HR data using Power Query to prepare for visualization and reporting.
- Created KPIs and visualizations to track employee attrition, hiring trends, and workforce demographics, enabling insights into HR decision-making.
- Applied DAX measures for advanced calculations (attrition by tenure, department-level metrics, turnover rate).

Professional Experience

DIGITAL TRANSFORMATION INTERN – Almansour Automative **–** Giza, EG August 2025

- Rotated across four departments (*IT, SAP, Digital Transformation, and Network Security*) to gain holistic exposure to technical and managerial practices.
- Contributed to a digital transformation project by building a data pipeline in Microsoft Fabric with PySpark, cleaning data, and applying machine learning models for insights.
- Analyzed ERP workflows in SAP to understand how digital tools streamline procurement, finance, and HR operations.
- Collaborated with the IT and network security teams to explore infrastructure management, data security, and risk assessment practices.
- Developed soft skills including cross-team communication, problem-solving, and adaptability in a corporate environment.

INFROMATION TECHNOLOGY INTERN – Arab Organization for Industrialization – Cairo, EG July 2024

- Internet of Things (IoT) – AOI Academy
- Completed a 7-day training covering sensors, microcontrollers, and IoT systems with practical applications.
- Cloud Computing – AOI Academy
- Completed a 5-day course focused on cloud infrastructure, deployment models, and hands-on experience with cloud services.

Courses & Certifications

WE TELECOM EGYPT – Training Academy – Cairo, EG

- AI Professional Level | Deep Learning & Computer Vision
- AI Associate Level | Machine Learning

DATA CAMP – Online Learning Website

- Associate Data Scientist in Python | 90 HR
- Associate Data Analyst in SQL | 39 HR
- Data Analyst in Python | 36 HR
- Power BI Fundamentals | 19 HR
- Python Data Fundamentals | 28 HR
- Python Programming Fundamentals | 13 HR

COURSERA – Online Learning Website

- Database Management with Java and SQL.
- Applied Machine Learning in Python.
- Neural Networks and Deep Learning.

DIGITAL EGYPT PIONEERS INITIATIVE – (MCIT – CLS) June 2025 - present

- IBM Data Scientist Track.

Education

BACHELOR OF COMPUTER SCIENCE – King Salman International University – Egypt October 2022 – June 2026
Majors: Software Engineering
GPA: 3.8
Courses include Linear Algebra, Artificial Intelligence, Machine Learning, Probability and Statistics, Image Processing, Database Systems, Critical Thinking
• Participated in IEEE, GDSC, and ICPC student communities.
• Selected as a COP27 Youth Volunteer (via KSIU) and participant in the Huawei ICT Academy.
